

AV/Computer Technician/Installer

Cineviz, a leader in the technology engagement marketing, is seeking an experienced motivated individual to install advanced display and computer vision technologies including digital signage, touch screen and gestural. The candidates must be extremely organized, be able to work independently in a fast-paced, changing environment.

Job Summary:

You will work with a team of digital media professionals installing the latest in display technology. Cineviz is a Gesturetek Strategic Partner and the primary job role will be to install and troubleshoot GestureTek equipment, NOT installing networks as part of an IT role. Secondary job role will be to support the design and installation of digital signage, video walls, projection and other advanced display technologies nationally. Job does include learning new and emerging technology platforms.

Flexible schedule with ability to travel is a requirement of this position. You will be out of the office 50% or more of the time. Job could require international travel. If you have these qualifications and would like to join an exciting, rapidly growing successful company with amazing technology, this is the place to be!

Job Position: This position can be contract to start and changing into salary full-time permanent

Job Requirements:

The successful candidate would be able to demonstrate knowledge of the following:

- Detail oriented and quality focused
- Experience at installing and troubleshooting current A/V production equipment (projectors, industrial video cameras and rigging)
- Solid understanding of PCs and troubleshooting in a Windows multimedia environment
- General project management experience
- Ability to work independently under tight deadlines, handle multiple projects
- Customer relations experience and strong command of English (Spanish is an asset)
- Ability to move/lift equipment like monitors, computers, etc.

Responsibilities:

- Primary is the installation and tech support of Gesturetek vision based systems
- Secondary is installation and tech support of all other display technologies
- Coordination of installation with partners in providing national rollouts
- Coordination of shipping and delivery of systems
- Troubleshoot systems
- Provide Tech Support for Cineviz and freshpaintdigital technologies
- Research and Development of emerging technologies with rapid prototyping

Technical Experience (Plus – Not Required)

- CAD experience in designing A/V networked systems
- Experience with lighting and rigging
- Exposure to computer programming
- Networking experience

Education: Associates Degree (Minimum), Bachelor's Degree (Desired). Additional IT certifications a plus.
